ENERGY NUTRIENTS™

Every plant obtains its energy from the sun, which is converted into a set of vibrational frequencies that support the bio-electric signaling impulses that flow between your brain and specific glands, organs and tissues. This phenomenon in which one vibrating system (e.g., a plant) drives another system (e.g., the body) to oscillate at greater amplitude is called resonance. Resonance captured in water through the Bio-Transfer Technology™ is known as Energy Nutrients™. **THRIVING WOMAN** provides the Energy Nutrients™ that support a female's ability to fully express herself, confidently and passionately.

AURALANA'S BIO-SPRAYS

Auralana's BIO-SPRAYS utilize Bio-Transfer Technology™ to extract Energy Nutrients™ that are stored in plants (through photosynthesis) into water, the perfect storage medium for the myriad frequencies that plants utilize to store energy. The different frequencies in our BIO-SPRAYS activate varied and specific physiological pathways and functions that are critical to human health. Until now, humans have relied on plants and animals to transfer these Energy Nutrients™ to the human body. Auralana's BIO-SPRAYS represent a leap in the technology of human health and nutrition, bypassing inefficient mechanisms of energy transfer (i.e. supplements and diet) and supplying the body with a direct source of Energy Nutrients™ with loss-less transmission. This is a breakthrough for human nutrition technology and its availability marks a new and better path for practitioners to support their patients/clients health, physiology, and overall well-being.
